

## User Guide: How to Use the Zhaga Certified Products Database

Search can be done in multiple ways

### 1. Search for product, brand or company

*Search product, brand or company*

- a. If you have a product at hand and want to double-check if it is certified, just enter the product name
- b. By entering a brand or a company you will see a list of all certified product from that brand or company

Be aware: you cannot enter the brand and use another filter criteria at the same time

### 2. Other search functions

Book	Type of Zhaga Certification	Company Name	Product Type
-- Select --	Zhaga-NFC	-- Select ---	-- Select --

#### - **Search by Book**

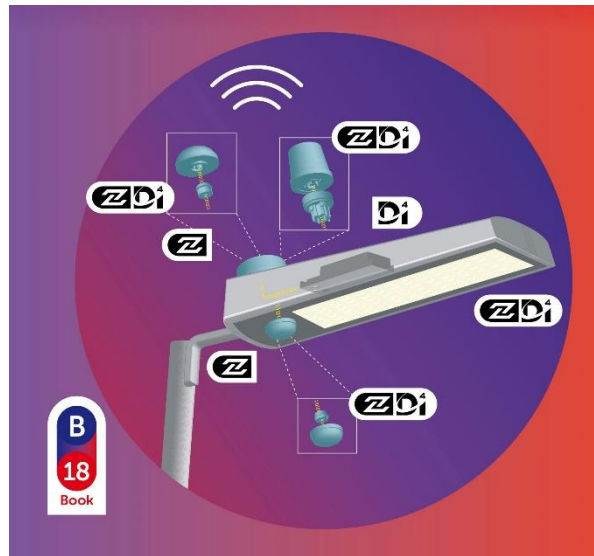

If you want to find out which products related to a specific Zhaga Book are certified, click on “Select” under Book and you can choose the book you’re interested in

#### - **Search by Type of Zhaga Certification**

This drop-down list shows the various Zhaga certification logos. Following is a list of product types and which Zhaga certification can be applied for:

- “Z” for LED modules, drivers, connectors, receptacles, baseplates and caps
- “Zhaga-D4i” for luminaires and control devices
- “Zhaga-NFC” for NFC programmable devices and NFC readers

The following overview shows a Book 18 luminaire with its components and related certification logos.

- **Search by Company Name**
  - The drop-down list shows all Zhaga members that have received a Zhaga certification for one or more of their products
  - Select one company and all certified products from that company will be listed
  
- **Search by Product Type**
  - The drop-down list shows all eligible product types being Zhaga certified
  - Select one product type and all certified products from that type will be listed

Search can be **narrowed** by clicking on “Select” under any or all of the 4 search categories (Book, Type of Zhaga Certification, Company Name or Product Type)

Before searching for new products, always push the “Reset the search” button.

### 3. View Product Details
